Summary

Ideas can change the world, being the reason why I spend my career searching for good ideas, writing about them and trying to help get them into practice. I believe that we are at a moment when we need intelligent change more than ever.

I love to bring together people with great ideas - launching and moderating conferences for The Economist (Dovetec.org, Micro-Mentors and much more) and many societal problem-solving convenings during my time leading the Dovetec.org program to build experiences in technological fields.

I founded the Dovetec.org, a software Engineering Startup working towards solving workforce complexities delivering solutions to the workforce challenges. I am currently working on another, on the movement to build a just and sustainable economic system.

I have advised and collaborated with innovators in business, government, social enterprise, investing and philanthropy. I am currently working on a portfolio of change-making projects.

As a Micro-mentor at Micro Mentors by Mercy Cheps, I help youths, SMEs, Young Aspiring Entrepreneurs, Inventors and innovators realize their worth in their respective ecosystems.

About Me:
I am currently Enrolled in a Bachelor's degree in computer Science at my second Year University of The People. I am skilled in the field of computer applications and also Hardware installation, assembly and Management

I am a young, Curious wholehearted, generous and industrious guy who is goal oriented and my guiding cuidar is delivering solutions to workforce challenges
I am a programmer with 3 year of experience In Front end and 2 year experience in Backend. I employ frameworks such as Laravel, Django, Flask in the backend and Vue.js, Angular.js, React in both front and Backend I love challenges and I am open for challenges, Collaboration in both opensource and personal projects. I am passionate about programming and software development. I am into web development, Android development, App development.

I have a three year experience in my data entry profession. I am an upcoming author working on my Book. I am good at Data Management, Academic, Writing, Technical writing applying the latest
citation and appropriate writing techniques.

My Skills:
Proofreading | Editing | Transcription | Data Entry specialist | Excel | PowerPoint | Programming | Web Development | Android development | Academic writing | Data management | Data Analysis | DevOps | Microsoft packages | Proofreading | Academic Writing |Technical writing|

I am open for Opportunities, Learning, Sponsorships. I welcome challenges and Ideas.
